

Huananta®

Our vineyards

Huananta®'s vineyard is located in historic wine area, Maipú, Mendoza with over 60 hectares. Marcelo Bocardo, owner and winemaker acquired this state back in 2014. Previous and first owner decided to plant in this estate because of its soil and good climate conditions.

In our vineyard you'll find the varieties that define us as a particular brand, such as our Petit Verdot or our mixed plantation of syrah and grenache.

Varieties:

Malbec: 17,2 hectars

Petit Verdot: 3 hectars

Cabernet Sauvignon: 13 hectars

Syrah: 1 hectar

Sauvignon Blanc: 5 hectars

Aspirant Bouschet: 1 hectar

Cabernet Franc: 1,6 hectar

Chardonnay: 1 hectar

Soils

We have two types of soils, clay silt and stony soil that define the system of training of the vines.
